DETAILED ACTION

Response to Amendments

Applicant's amendment filed on 8/16/2006 has been carefully considered. As a result of canceling claims 26-28 and 37-39 and amending claim 25 and 36, the application is now in condition for allowance.

Specification

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Allowable Subject Matter

Claims 25, 29-36 and 40-48 are allowable.

The following is an examiner's statement of reasons for allowance: Claim 25 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to fairly show or suggest the claimed invention comprising, among other limitations, a novel and unobvious limitation of "a pointer retrieval circuit associated with the memory unit, said pointer retrieval circuit configured for generating for each value of said given number of items (K) in said given range a corresponding pointer pointing to a respective record in said memory unit" structurally and functionally interconnected with other limitations in the manner as cited in the claim and dependent claims 29-35 and 48.

Claim 36 is allowed over the prior art of record. The prior art of record, considered individually or in combination, fails to fairly show or suggest the claimed method comprising, among other limitations, a novel and unobvious limitation of "identifying each said record in said memory unit by respective pointer and generating for each value of said given number of items (K) in said given range a corresponding pointer pointing to a respective record in said memory unit" structurally and functionally interconnected with other limitations in the manner as cited in the claim and dependent claims 40-47.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to application's disclosures. The cited references relate to instant application subject matter.
